

It's easy to change accountants

HERE IS OUR PROCESS:

Client barely has to lift a finger and we handle the handover in full including transfers of all software licenses and hmrc codes.

It's usually stress free for the client!

If the old accountant:

1. Doesn't reply
2. Doesn't send what we need

We need to chase them

But if a client is currently getting such a poor experience, **change firms asap!**
